Forecast For Northwest England
Issued by Met Office Exeter
at 1600 on Monday 22 Feb 2021

++ Valid for broadcast between 1800 and 0600

Headline:
Largely dry overnight, becoming wet and windy with coastal gales.

This Evening and Tonight:
While this evening remains dry, cloud encroaches from the west overnight, bringing with it a chance of light rain in the early hours, with winds strengthening throughout. Risk of coastal gales before dawn. Minimum temperature 4 deg C (39 deg F).

Tuesday:
Outbreaks of rain throughout the day and overnight in the north of the region, heavy at times. Southernmost areas likely to remain largely dry. Strong winds and coastal gales throughout. Maximum temperature 12 deg C (54 deg F).

Outlook for Wednesday to Friday:
Further wind and rain on Wednesday, reaching slightly further south. Sunshine and showers on Thursday, with light winds. Dry with sunny spells on Friday. Mild days but increasingly colder nights.
